## PROFILE

Full Stack Developer specializing in React.js and modern JavaScript, building responsive, component-based applications with React Hooks, dynamic routing, and REST API integration. Comfortable building across the stack with Node.js, Express.js, MongoDB, and TypeScript. B.Tech in Computer Science with experience in web development and visual design.

## TECHNICAL SKILLS

- **Front-End Skills** - HTML, CSS, **Javascript**, **React.js**, Typescript, Next.js, Tailwind CSS
- **Back-End Skills** - Node.js, Express.js, Typescript, REST APIs
- **Database** - MongoDB
- **Tools** - Git & GitHub, Figma

## PROJECTS

**Chattr (Realtime Chat App)**
- Built a real-time chat application using Next.js and TypeScript, with 17 backend functions across 6 data models via Convex, and Clerk for authentication.
- Implemented protected routes, message editing/deletion, typing indicators, read receipts, optimistic UI updates.
- Developed reusable, responsive React components with Tailwind CSS.

**IndiaStack API (REST API)**
- Designed and shipped a public REST API serving 164K+ IFSC codes and 19K+ pincodes, plus holiday data, across 4 endpoints.
- Added API-key authentication and rate limiting, then wrote and published full API documentation on Netlify.
- Listed on Zyla API Hub for third-party developers; built with Node.js/Express for clean external consumption.

**Van Life (React web app)**
- Built a 14-page responsive van rental platform using React, including a nested host dashboard
- Implemented dynamic routing, live data fetching, and URL-based filtering
- Deployed live and linked to GitHub

## PROFESSIONAL EXPERIENCE

**Freelance Web Developer** 2021 – Present

*Self-employed*
- Designed and built a custom WordPress invitation site end-to-end, from layout to launch, for a client event
- Rebuilt a client's Shopify storefront theme, writing custom CSS and Liquid templates to match their brand
- Independently built, deployed, and launched a full restaurant website on Netlify, handling everything from design to hosting

**Game Developer** 06/2022 – 10/2024 | Pune

*revolutionary*
- Developed core gameplay mechanics for Maramari Club, a 2.5D fighting game, and Dash n Drop, an endless runner.
- Designed and implemented engaging game levels and interactive elements to enhance player experience.
- Programmed and optimized gameplay features for Quick Relocation, a furniture delivery game.

## EDUCATION

**Bachelor of Technology in Computer Science Engineering** 07/2018 – 07/2022 | Pune, Maharashtra

*MIT Art, Design & Technology University*

## CERTIFICATES

**Full-Stack Developer Career Path - 2025** — Scrimba

**Google UX Design Specialization - 2024** — Google
